

WHY GENDER EXPLORATORY THERAPY IS BAD

1

It is therapy with an agenda. The agenda is to never let a young person transition

They believe youth cannot make decisions until age 25

2

3

They believe medical interventions are experimental. This includes Puberty blockers which allow for more time for decisions to be made

They believe gender dysphoria can be explained by factors other than being trans. These include social contagion, mental health issues, autism, shame over sexual orientation

4

5

They have a clear political agenda. They made a statement against Title X protections for trans Youth They spoke against President Bidens' executive order against conversion therapy
